Welcome to Stealth Training: Your flight path to wings!

ADELAIDE MELBOURNE SYDNEY PERTH BRISBANE HOBART

About the Course

Stealth Training provides you with necessary skills to give you the advantage in achieving your wings and fulfilling your ambition to fly in the military or a major airline.

Latest statistics reveal of the 2,200 applicants who applied for pilot selection for the Australian Department of Defence over two consecutive years, only 112 applicants were successful in gaining a position on pilots' course. Civilian statistics are similar.

During the two day course, participants undertake simulated testing, role playing and exercises to become familiar with recruitment and selection processes. The course endeavours to prepare participants for likely situations that may occur when actually undertaking the real pilot selection process.
